Executive Summary

Subject: ISA-2023-04-0238: Interconnection Security Agreement (Renewal) between the U.S. Department of Homeland Security, Customs and Border Protection's TECS/TECS Cloud Enhanced Driver's License (EDL) and the Michigan Department of State (MDOS) Customer and Automotive Records System (CARS).

Issue: Requesting approval for the Interconnection Security Agreement (ISA) between the U.S. Customs and Border Protection (CBP) TECS/TECS Cloud Enhanced Driver's License (EDL) and the Michigan Department of State (MDOS) Customer and Automotive Records System (CARS) through the Homeland Security Enterprise Network (HSEN).

Background: The purpose of the interconnection between CBP TECS/TECS Cloud Enhanced Driver's License (EDL) and the Michigan Department of State (MDOS) Customer and Automotive Records System (CARS) is for the express purpose of exchanging Personally Identifiable Information (PII) in alignment with the Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) and MCL 28.303, sect. 3 between the CBP TECS/TECS Cloud, owned and operated by CBP, and the Customer and Automotive Records System, CARS, owned by MDOS. The expected benefit of this interconnection is the validation of individuals entering the United States using Enhanced Driver's License (EDL).

[redacted]

[redacted], the Security and Technology Policy Director recommends approval of this ISA renewal for 3 years.

Submitted by: IRW [redacted]
Date: June 9, 2025
Point of Contact: IRW [redacted]
Telephone: IRW [redacted]

Interconnection Security Agreement between the U.S. Department of Homeland Security (DHS) U.S. Customs and Border Protection (CBP) and the Michigan Department of State (MDOS) via the Homeland Security Enterprise Network (HSEN)

TECS/TECS Cloud Enhanced Driver's License (EDL) and Customer and Automotive Records System (CARS)

1.0 PURPOSE

This Interconnection Security Agreement (ISA) is required by Federal and Department of Homeland Security (DHS) policy and establishes individual and organizational security responsibilities for the protection and handling of unclassified information between the U.S. Customs and Border Protection (CBP) and Michigan Department of State (MDOS) through the Homeland Security Enterprise Network (HSEN). Any specific requirements of the three signatory organizations are also included.

This ISA establishes the direct interface between the MDOS Customer and Automotive Records System (CARS) and the Department of Homeland Security/Customs and Border Protection (DHS/CBP)'s system for transmitting enhanced driver's license and/or enhanced state personal identification card (EDL) data for verification purposes by DHS/CBP.

The data will be used by DHS only as is expressly agreed upon by the parties under this ISA. Access to the data by any party or for any purpose not identified in this ISA is strictly forbidden. Data provided by MDOS remains the property of MDOS.

1.1 Security Network Connectivity Policy

DHS Policy Directive 4300A: Information Technology System Security Program, Sensitive Systems, establishes DHS policy for network connectivity. DHS policy states:

- Interconnections between DHS and non-DHS systems must be established only through the Trusted Internet Connection (TIC) and by security level of information (see NIST FIPS 199 for information security impact categorization details) on the network. Connections with other Federal agencies are documented based on interagency agreements, Memorandums of Understanding (MOU). Memorandum of Agreement (MOA), Service Level Agreements (SLA), or ISA.
- Ensure DHS Components document all interconnections to the HSEN with an ISA signed by the HSEN AO and by each appropriate AO.
- Ensure that ISAs are reissued every three years or whenever any significant changes have been made to any of the interconnected systems.
- Ensure that ISAs are reviewed and updated at a minimum every three years or as needed as a part of the annual FISMA self-assessment requirement.
- Ensure DHS Components document interconnections between their own and external (non-DHS) networks with an ISA for each connection.
- Ensure the Department and DHS Components implement Trust Zones by means of Policy Enforcement Points (PEP), as defined in the DHS Security Architecture Framework.

<u>MDOS CARS Security Policy</u>

1340.00.050.01 SECURITY ASSESSMENT AND AUTHORIZATION STANDARD

- Authorize connections from the information system to other information systems through the use of Interconnection Security Agreements.

- Document, for each interconnection, the interface characteristics, security requirements, and the nature of the information communicated. [DHS – Enhanced Drivers License Interface].

1340.00.150.02 DATA CLASSIFICATION STANDARD

- This standard incorporates the relative data categorization standards and guidelines from the following publications:
  - Federal Information Processing Standards (FIPS) Publication 199, Standards for Security Categorization of Federal Information and Information Systems
- The data exchanged in this interconnection are classified as confidential by MDOS.
- Review and update Interconnection Security Agreements at least annually.

1.2 ISA Requirements for Types of System Interconnections

System interconnections may be characterized as either direct or networked. Direct connections are single purpose point-to-point connections that support only the two connected systems. Directly connected systems do not rely on another network for their connectivity or security and are physically and electronically isolated from other networks and systems. Networked systems connect via an intervening network that exists as a general support system, not a single-purpose connection. Systems that are connected via an encrypted tunnel, whether on HSDN (Homeland Security Data Network) or any other network, are considered networked systems.

For networked U.S. Government systems, the ISA must include the owner and AO (Authorizing Official) of the network, as well as the owners of the applicable systems.

1.3 Scope

This interconnection security agreement addresses the interconnection between CBP and MDOS by way of the HSEN extranet infrastructure. The connection is established through a secure VPN connection. Additionally, the ISA covers application and/or control data traversing the networks.

1.4 Point of Contact (POC)

For all issues associated with this agreement, the established points of contact are as follows:

CBP	MDOS	Homeland Security Enterprise Network (HSEN)
Authorizing Official: IRW Assistant Commissioner Office of Information and Technology and CBP CIO IRW IRW	**Authorizing Official:** IRW Chief of Staff, MDOS IRW IRW	**Authorizing Official:** IRW DHS CISO, OCIO IRW IRW

System Owner: IRW Deputy Executive Director, Technical Integration Division Passenger Systems Program Directorate (PSPD) IRW IRW IRW	**System Owner:** IRW Director, Core Technology Division, IRW IRW	**System Owner:** IRW Senior Engineer IRW IRW
ISSO: IRW Information System Security Officer Passenger Systems Program Directorate (PSPD) IRW IRW IRW	**ISSO:** IRW Director, Information Security and Control Division MDOS IRW IRW	**ISSO:** IRW DHS HSEN ISSO IRW IRW IRW
ISSM: IRW Information System Security Manager IRW IRW	**ISSM:** IRW Information Security Manager, MDOS IRW IRW	**ISSM:** IRW Information System Security Manager IRW IRW
CISO: IRW Chief Information Security Officer, OIT IRW IRW	**CISO:** IRW Chief Security Officer, State of Michigan IRW IRW	**CISO:** IRW DHS CISO, OCIO IRW IRW
Program Manager: IRW TECS/TECS Cloud Program Manager IRW IRW	**Program Manager:** IRW Core Technology Division, MDOS IRW IRW	**Program Manager:** IRW Director, HSEN IRW IRW

MDOS

- POLICY 1340.00 Information Technology Information Security

2.0 INTERCONNECTION JUSTIFICATION

The requirements for interconnection between the two systems is for the express purpose of exchanging Personally Identifiable Information (PII) in alignment with the Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) and MCL 28.303, sect. 3 between the CBP TECS/TECS Cloud, owned and operated by CBP, and the Customer and Automotive Records System, CARS, owned by MDOS.

The MDOS requires the use of the HSEN, owned, and operated by the DHS Office of the Chief Information Officer (OCIO)/Enterprise Services Division (ESD), as a transport system for wide area network (WAN) services and interconnectivity to the DHS infrastructure.

3.0 SECURITY CONSIDERATIONS

This section describes the security mechanisms in place to secure the connections between both systems. It outlines the security considerations and the organization responsible for each. In some cases, both organizations will share security responsibility.

3.1 General Information/Data Description

The purpose of the interconnection between CBP TECS/TECS Cloud and MDOS Customer and Automotive Records System (CARS) is to validate the Enhanced Driver's Licenses (EDLs) of individuals entering the United States. The data flow is bi-directional with verification to confirm receipt of data from CBP to MDOS. The data traversing the networks will be limited to DHS CBP and State of Michigan (SOM) network unclassified operational and administrative data. For clarity, the term "unclassified" refers to a designation of national security related information pursuant to Executive Order No. 13526 of December 29, 2009, or successor orders, or the Atomic Energy Act of 1954.

The interconnection between the DHS CBP and the MDOS through the HSEN Extranet will be via IPSec AES-256 encrypted tunnels and will utilize the dynamic BGP (Border Gateway Protocol) routing protocol in providing routing/geographic failover and redundancy. Within these encrypted GRE (Generic Routing Encapsulating) tunnels, the HSEN Extranet will also establish IPSec AES-256 encrypted GRE tunnels in routing data to the MDOS network.

Personal Information (PI) and PII (Personally Identifiable Information) are exchanged in this interconnection. The following PI and PII is exchanged:

Attributes for inquiries from DHS:

Incoming Request Information from DHS: Machine Readable Zone (MRZ), Radio Frequency Identification (RFID), Document ID, Document Control ID, First name, Middle name, Last name, Suffix, Date of Birth.

CARS returns the following PII data:

[redacted]

Privacy Training Requirements

All contractor and subcontractor employees that will have access to Personally Identifiable Information (PII) and/or Sensitive PII (SPII) are required to take Privacy at DHS: Protecting Personal Information before accessing PII and/or SPII. The training is accessible at http://www.dhs.gov/dhs-security-and-training-requirements-contractors. Training shall be completed within thirty (30) days of contract award and be completed on an annual basis thereafter not later than October 31 of each year. Any new contractor employee assigned to the contract shall also complete the training before accessing PII and/or SPII. The contractor shall maintain copies of training certificates for all contractor and subcontractor employees as a record of compliance. Initial training certificates for each contractor and subcontractor employee shall be provided to the COR (Contracting Officer Representative) not later than thirty (30) days after contract award. Subsequent training certificates to satisfy the annual training requirement shall be submitted to the COR via e-mail notification not later than October 31st of each year. The email notification shall state the required training has been completed for all contractor and subcontractor employees.

3.2 ISA Requirements Within and Across Organizational Boundaries

The HSEN is owned, operated and managed by DHS Office of the Chief Information Officer (OCIO)/Enterprise Service Division (ESD). All HSEN Information Technology (IT) equipment interconnected with the CBP Network within the boundary of the CBP Network is owned, operated and maintained by CBP contracted services or government employees. All CBP Network IT equipment interconnected with the Homeland Security Enterprise Network (HSEN) at the Data Centers will be hardened, at a minimum, per DHS 4300A hardening guidelines or per specific waivers to hardening guidelines requested, documented, and approved by the appropriate ISSM.

The HSEN and the SOM Network will protect the data in order to maintain confidentiality, integrity, and availability of the data and information systems. The data and information systems will be protected in accordance with the DHS Sensitive Systems Policy Directive 4300A, the NIST SP 800-53 assigned minimum security controls, and the FIPS 199 Security Categorization of both/all systems to ensure that the connection will be protected to the requirements of the higher categorized system. The HSEN is categorized as: Confidentiality = High, Integrity = High, and Availability = High. The CBP TECS/TECS Cloud is categorized as: Confidentiality = High, Integrity = High, and Availability = High, as defined by NIST Federal Information Processing Standard (FIPS) FIPS-199 and documented in the DHS IACS/CSAM. CARS is categorized as: Confidentiality = Moderate, Integrity = Moderate, and Availability = Moderate.

CBP TECS/TECS Cloud and MDOS CARS were issued an Authorization to Operate (ATO)/OA:

Note: Non-DHS systems may not have an "ATO."

System	Autorization to Operate (ATO)	On going Authorization (OA)
TECS/TECS Cloud	December 15, 2022	N/A
CARS	August 4, 2022	N/A

3.3 Physical Security and Environmental Controls

[redacted]

[redacted]

3.4 Data Sensitivity

All data traversing this connection are presumed Sensitive, but Unclassified (SBU), and includes data that is, but not limited to, Sensitive Personally Identifiable Information, For Official Use Only, and/or Law Enforcement Sensitive.

The highest level of data that traverses the HSEN and CBP is Sensitive but Unclassified (SBU).

MDOS classifies the data as Confidential per State of Michigan policy 1340.00.150.02 DATA CLASSIFICATION STANDARD.

Table 1: FIPS 199 Security Categorization

System	Confidentiality	Integrity	Availability	Overall
CBP TECS/TECS Cloud	HIGH	HGH	HIGH	HIGH
CARS	MODERATE	MODERATE	MODERATE	MODERATE
HSEN	HIGH	HIGH	HIGH	HIGH

Security measures are in place to protect all data transiting the HSEN Extranet, as required by the Office of Management and Budget (OMB). The drawings provided in this document identify the layered approach to security at the HSEN in section 4.0 of this document.

3.5 Services Offered

The interconnection between the CBP and the SOM network connected through the HSEN are supported by Multiprotocol Label Switching (MPLS) at the HSEN. HSEN transport services utilize MPLS and Dynamic Multipoint Virtual Private Network (DMVPN) technologies. The HSEN provides WAN connectivity services, Internet services, and perimeter security protection to TECS/TECS Cloud.

Services and ports that are needed to access the DHS systems are listed in Attachment A: System Connection Overview, HSEN, CBP, and MDOS, allowed Ports, Protocols & Services.

3.6 Period of Operation

CBP and the CARS systems are operational 24 hours a day, 7 days a week.

MDOS reserves the right to schedule the time and duration of the availability of electronic access to the data. MDOS does not guarantee continuous availability during scheduled times, but will use reasonable efforts to make the data available as agreed under this ISA.

3.7 User Community

The CBP user community is mainly comprised of officers, government employees, and contractors, all with a favorably completed Background Investigation (BI). Additionally, other users may include employees or contractors of other DHS Components and other Federal agencies. All CBP users will have appropriately adjudicated suitability background investigations and will be U.S. citizens.

The MDOS user community is comprised of state employees only. All users with system permissions subject to the REAL ID Regulation (6 CFR § 37.45) must pass a Background Investigation and be U.S. citizens.

3.8 Information Exchange Security

Information exchange will be encrypted using a FIPS 140-2 compliant IPSec AES-256 encrypted GRE tunnels via Cisco devices on both sides of the connection.

Dynamic Multipoint Virtual Private Network (DMVPN) provides a mechanism for the dynamic negotiation of IPSec encrypted tunnels between any two endpoints, alleviating the need for complex router configurations.

HSEN maintains the following Intrusion Detection System (IDS)/Intrusion Protection System (IPS) and firewalls on the HSEN:

Please contact the DHS NOSC CYBER at 1-877-DHS1NET or 1-877-347-1638 (Option 2), dhsnosccyber@hq.dhs.gov for details on the DHS security monitoring, security vulnerabilities and compliance.

The state of Michigan maintains IDS/IPS and firewalls on the SOM Network.

MDOS may be contacted by email at SOSInformationSecurity@michigan.gov or by phone at 517-230-5414 for this information.

Both organizations will ensure that virus and spyware detection and eradication capabilities are used where appropriate (e.g., workstations, laptops, servers, etc.) and that adequate system access controls are in place and maintained on all components connected to the systems.

Specific protocols and ports that are needed to support this interconnection are provided in attachment A. Ports and protocols not specifically defined in Attachment A will be approved by DHS firewall change control procedures.

3.9 Trusted Behavior / Rules of Behavior (RoB)

The CBP and SOM network users, to include system administrators, are expected to protect data in accordance with the policies, standards, and regulations specified for each system. This includes CBP and SOM network policy and the documented rules of behavior for each system.

The *DHS Policy Directive 4300A: Information Technology System Security Program, Sensitive Systems Attachment G, Rules of Behavior,* as specified by the DHS CISO applies to both systems.

DHS CBP	(703) 921-6507 CBPSOC@cbp.dhs.gov	24 x 7 x 365
MDOS	SOSInformationSecurity@michigan.gov 517-230-5414 For after-hours incidents: Client Service Center: (517) 241-9700	24 x 7 x 365

3.12 System Monitoring

HSEN IDS/IPS & Firewalls: Please contact the DHS NOSC CYBER at 1-877-DHS1NET or 1-877-347-1638 (Option 2), dhsnosccyber@hq.dhs.gov for details on the DHS security monitoring, security vulnerabilities and compliance.

HSEN performance and monitoring: Please contact the DHS NOSC Infrastructure at 1-877-DHS1NET or 1-877-347-1638 (Option 1), dhsnoscinfrastructure.hq.dhs.gov for details on the DHS performance monitoring tools.

Information provided upon request.

CBP

CBP IDS/IPS & Firewalls: Please contact the CBP SOC at (703) 921-6507, CBPSOC@cbp.dhs.gov for details on the CBP monitoring security vulnerabilities and compliance.

CBP performance and monitoring: Please contact the CBP SOC at (703) 921-6507, CBPSOC@cbp.dhs.gov for details on the CBP security monitoring tools.

Information provided upon request. The POC is CBPSOC@cbp.dhs.gov (703) 921-6507.

MDOS

MDOS may be contacted by email at SOSInformationSecurity@michigan.gov or by phone at 517-230-5414.

3.13 Security Audit Trail Responsibility

[redacted]

3.14 Specific Equipment/Service Restrictions

The use of specific prohibited or restricted services, protocols, and ports listed in the *DHS Policy Directive 4300A: Information Technology System Security Program, Sensitive Systems* require an approved waiver or exception agreement between the system AOs. Any additional interconnections to either system will be documented in the appropriate security documentation and each party will be notified of the new interconnections.

3.15 Dial-Up/Remote Connectivity

There is no remote dial-up to this system. All access is via network connectivity through secure connections.

3.16 Training and Awareness

Both parties will ensure that all individuals using the systems (i.e., DHS CBP and SOM network) have attended initial basic and annual refresher Cyber Security Awareness and Training. Both parties will ensure that persons with significant security responsibilities for the systems receive annual role-based training covering their specific areas of responsibility. This training should ensure that staff members know how to report suspicious or prohibited activities.

MDOS CARS

State of Michigan employees will abide by the Department of Management and Budget's Security Awareness and Training Standard SOM 1340.00.030.01. These standards ensure that SOM Authorizing Officials and all other associated personnel understand the responsibilities and training requirements necessary to effectively maintain organizational awareness, minimize insider threats, and prevent additional security related incidents.

3.17 Security Documentation

Security documentation will be updated to reflect the continuation of this interconnection and whenever a significant system change occurs or at least annually. This ISA will be updated should any of the information contained within change. The following information, at a minimum, will be accurately maintained within this ISA:

- Names of interconnected systems
- Organizations owning the other systems
- Type of interconnection
- Name and title of authorizing management officials (e.g., Chief Information Officer or Designated Authorizing Authority)

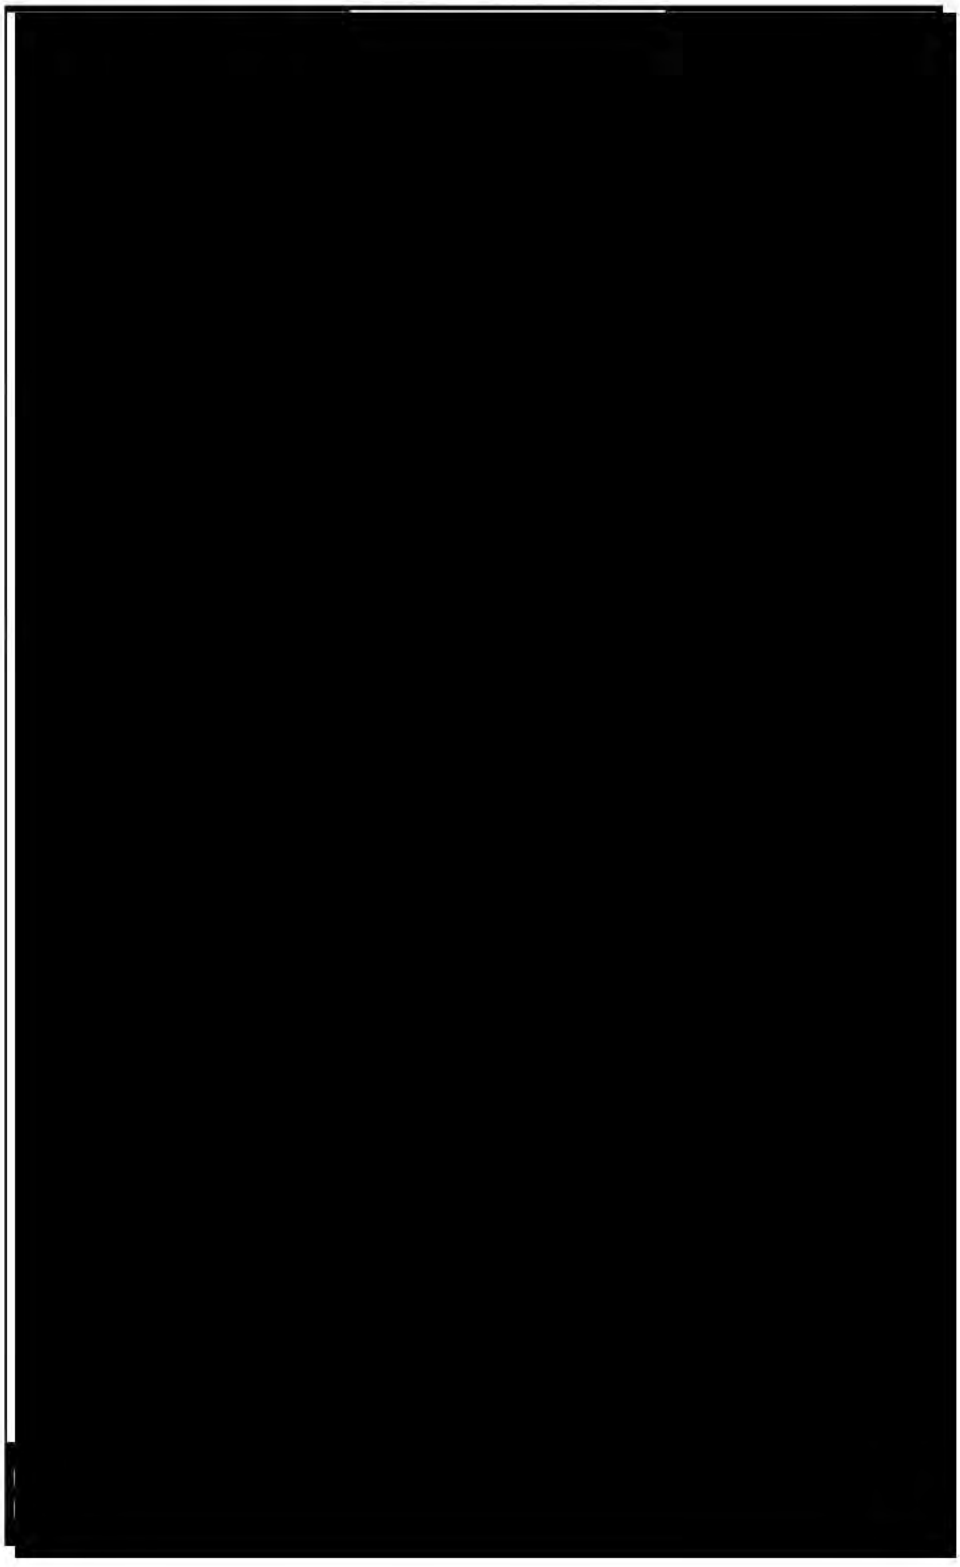
- Interaction among the systems

All future changes relating to the security architecture of either system will be updated within the corresponding security documents.

3.18 Change Control

Significant changes to the system architecture, documentation, or configurations will be reviewed, approved, and documented in accordance with each organization's configuration/change control process. Each organization will notify the other if a system change significantly changes the approved security posture of the system or introduces new significant residual risk to either system. Whenever significant changes are made at one or both organizations, e.g., through additional staff, service, etc., this ISA will be updated.

4.0 TOPOLOGICAL DRAWING



5.0 SIGNATORY AUTHORITY

This ISA is valid for three (3) years after the latest date on the signatures listed below if the technology documented herein does not change or if there are no other intervening requirements for updates. At that time, it must be reviewed, updated, and reauthorized. The security controls for this interconnection will be reviewed at least annually or whenever a significant change occurs. Either party may terminate this agreement with thirty days advanced notice. Noncompliance on the part of either organization or its users or contractors with regards to security policies, standards, and procedures explained herein may result in the immediate termination of this agreement.

DATA SHARING AGREEMENT
BETWEEN
MICHIGAN DEPARTMENT OF STATE
AND
MICHIGAN STATE POLICE
FOR
LAW ENFORCEMENT INFORMATION NETWORK (LEIN), SEX OFFENDER REGISTRY UPDATES, AND EMERGENCY CONTACT

1. Introduction

This Data Sharing Agreement (DSA) is between the Michigan Department of State (MDOS) and the Michigan State Police (MSP), collectively referred to as the parties.

This DSA establishes the conditions under which MDOS agrees to disclose its driver and vehicle data, as outlined in Schedule A-1, to MSP and it provides for the protection of that data. This DSA also establishes the conditions under which MSP shares information with the MDOS, as outlined in Schedule A-2. It also identifies the responsibilities of each party and establishes terms governing the use, disclosure, and disposition of the DATA.

2. Definitions

- "Authorized entities or authorized entity" means agencies and entities that are granted access to MDOS data via the Law Enforcement Information Network (LEIN) as approved by MSP pursuant to the Michigan Criminal Justice Information Systems (CJIS) Administrative Rules (R 28.5101-5414).

- CJIS means Criminal Justice Information System as defined by R 28.5101(o) of the Michigan Criminal Justice Information Systems (CJIS) Administrative Rules (R 28.5101-5414).

- Disclosing Party refers to the Party that is providing data to the other Party, MDOS is the Disclosing Party for MDOS data. MSP is the Disclosing Party for MSP data.

- "MDOS data" means driver, vehicle, identification card, mobile home, recreational vehicle records, photos, and information collected, stored, and controlled by MDOS under the Michigan Vehicle Code, 1949 PA 300, (MCL 257.1,et al.) as amended, as listed in Schedule A-1.

- "MSP data" means criminal justice information collected, stored, and controlled by the MSP under the Criminal Justice Information Systems (CJIS) Policy Council Act (MCL 28.211 - 28.215) and Executive Order 2008-17, as listed in Schedule A-2.

- "DATA" means the MDOS data and MSP data, collectively.

- LEIN means the Law Enforcement Information Network as defined by R 28.5101(t) of the Michigan Criminal Justice Information Systems (CJIS) Administrative Rules (R 28.5101-5414).

- "MSOR" means Michigan Sex Offender Registry; when used, "SOR" means Sex Offender Registry.

- Nlets means the International Justice and Public Safety Network, a secure information sharing system used by local, state, and federal law enforcement agencies to communicate and share data.

- Receiving Party refers to the Party that is in receipt of data provided by the Disclosing Party. MSP is the Receiving Party for MDOS data. MDOS is the Receiving Party for MSP data.

- "Security breach" means the unauthorized access, disclosure, or misuse of the DATA, whether such unauthorized access, disclosure, or misuse is intentional or unintentional.

3. Purpose

The DATA will be used by the parties only as is expressly agreed upon under this DSA. Access to the DATA by any party or for any purpose not identified in this DSA is strictly forbidden.

a) MSP will retrieve MDOS data for the Michigan Law Enforcement Information Network (LEIN), which is operated by MSP, and accessed by authorized third party entities, in accordance with Criminal Justice Information Systems (CJIS) Administrative Rules. LEIN also interfaces with Nlets, to disseminate MDOS data to authorized criminal justice user agencies located in other states that are connected to the Nlets.

b) Pursuant to the Sex Offender Registry Act, MDOS will transmit the official ID or DL photo of a person required to sign up for the registry.
c) Pursuant to the Michigan Vehicle Act, MDOS will transmit emergency contact information that is stored to approved law enforcement personnel in this State, as allowed by law, through the LEIN.
d) MSP will transmit MSP data to the MDOS for use in the MDOS' official functions under the Michigan Vehicle Act.

The parties will request, use, and disclose only the minimum amount of DATA necessary. The parties understand that the willful unauthorized disclosure of information obtained by accessing the DATA for a purpose other than what is permitted usage related to this DSA, or the sale or other redisclosure of personal information to a person or organization not identified in this DSA, is prohibited, and may result in criminal and civil penalties imposed under the provisions of state and federal laws.

Data provided by MDOS remains the property of MDOS. Data provided by MSP remains the property of MSP.

4. Method of Transfer

The DATA will be shared by the following means (check as applicable):

☐ Encrypted email attachment
☐ Encrypted file on a removable storage device
☐ File Transfer Service (FTS)
☐ Online access (E-services)
☒ Other: (describe) web service API

MDOS requires that all MDOS data be encrypted at rest and in transit in compliance with State of Michigan (SOM) standards. MSP requires that all MSP data be encrypted at rest and in transit in compliance with SOM standards and the Federal Bureau of Investigation (FBI) Criminal Justice Information Services Security Policy (CJISSECPOL).

5. Frequency of Transfer

The DATA is expected to be transmitted in real-time to meet the purposes stated in §3 above.

6. Availability of Data

The parties agree that the DATA will generally be available 24 hours per day, seven days per week, 365 days per year. The parties reserve the right to

schedule the time and duration of maintenance services affecting the availability of electronic access to the DATA. Neither party guarantees continuous availability during scheduled maintenance times but will use reasonable efforts to make the DATA available as agreed under this DSA.

7. Legal Authority

The parties shall adhere to all federal and state laws and regulations pertaining to sharing the **DATA**.

Michigan State Police. The MSP's access to the MDOS data is in accordance with 257.208(3)(a) and (c). LEIN is used in compliance with Michigan CJIS Policy Council Act, MCL 28.211-215, and the Michigan CJIS Administrative Rules, R 28.5101-5414. Updating the Michigan Sex Offender Registry is in accordance with MCL 257.307(2)(d) and the Sex Offenders Registration Act, MCL 28.721, et. seq. Access to the emergency contact information is in accordance with the Michigan Motor Vehicle Act, specifically MCL 257.310(13).

Michigan Department of State. The MDOS's access to the MSP data is in accordance with the Michigan Vehicle Code, including but not limited to MCL 257.252, MCL 257.253, MCL 257.257, MCL 257.625a, and MCL 257.904.

8. Notices and Consents

To the extent required by law, regulations, or rules, the parties will provide the appropriate notices, and obtain the necessary consents, and authorizations from the individuals and entities the DATA concerns.

9. Data Classification

MDOS has classified the data using DTMB Technical Standard No. 1340.00.14, *Information Technology Information Security,* Current Revision.

The data classification level for MDOS data shared under this DSA is: confidential.

The security categorization is moderate.

The minimum security controls and control enhancements derive from the National Institute of Standards and Technology (NIST) SP 800-53, *Recommended Security Controls for Federal Information Systems,* Current Revision. The minimum baseline security controls are the starting point for the security control selection process and are the basis from which controls and control enhancements

may be removed, added, or customized to achieve the level of security protection required for the data or information system.

Additional security controls that are not addressed in the NIST SP 800-53 Security Controls may be required based on regulatory compliance or by contractual obligation. Once transmitted to the LEIN system, any residual MDOS data will be stored in accordance with the CJIS Security Policy.

MSP has classified the data using DTMB Technical Standard No. 1340.00.14, *Information Technology Information Security,* Current Revision.

The data classification level for MSP data shared under this DSA is: confidential.

The security categorization is moderate.

The minimum security controls and control enhancements derive from the National Institute of Standards and Technology (NIST) SP 800-53, *Recommended Security Controls for Federal Information Systems,* Current Revision. The minimum baseline security controls are the starting point for the security control selection process and are the basis from which controls and control enhancements may be removed, added, or customized to achieve the level of security protection required for the data or information system.

Additional security controls that are not addressed in the NIST SP 800-53 Security Controls may be required based on regulatory compliance or by contractual obligation. Once transmitted to the MDOS system, any residual MSP data will be stored in accordance with the CJIS Security Policy.

10. Facilitate Sharing of the DATA

The Disclosing Party must work with Receiving Party and the Department of Technology, Management, and Budget (DTMB) as necessary to facilitate the sharing of DATA under this DSA.

11. Protect the DATA.

The parties must maintain and use appropriate administrative, technical, and physical safeguards to protect the DATA from being accessed, used, disclosed, or stored in a manner other than as provided in this DSA. Controls must be in writing and provided to the Disclosing Party upon request.

i. **Administrative safeguards** include policies, procedures, training, and other measures designed to carry out security requirements.

ii. **Physical safeguards** include limitation of access to physical areas of information systems.

iii. **Technical safeguards** include automated processes used to protect and control access to data on information systems.

The Disclosing Party must perform access reviews to ensure that Receiving Party maintains and uses adequate administrative, technical, and physical safeguards to protect the Disclosing Party's data from unauthorized disclosure.

12. Maintain a security policy pertaining to the DATA.

The parties must maintain a written security policy describing their respective system in terms of categories of data processed, users allowed access, and access rules between the users and the data. Further security controls using password protection and authentication must be provided where the computer system contains information for more than one program, project, office, or agency so that personnel do not have unauthorized or unlimited access. A party must provide the other party with a copy of their security policy upon request.

13. Maintain a log.

The MSP must maintain a log of MDOS data, as it relates to Schedule A-1. The log must contain the MDOS data requested; date MDOS data was received; and the name of agency and employee making the request; and the names of employees with direct access to the data through the system. The log must be retained for not less than five years or according to agency retention schedule, whichever is longer. The MSP must provide the MDOS with a copy of the log, as it pertains to the MDOS data, upon request.

The MDOS must maintain a log of MSP data, as it relates to Schedule A-2. The log must contain the MSP data received; date MSP data received; and the name of agency and employee accessing the MSP data; and the names of employees with direct access to the MSP data through the system. The log must be retained for not less than five years or according to agency retention schedule, whichever is longer. The MDOS must provide the MSP with a copy of the log, as it pertains to the MSP data, upon request.

14. Limit access to the DATA

The parties must limit access to the DATA provided under this DSA to those specifically authorized by law to access the DATA.

The MSP shall not disclose MDOS data to any other agency, contractor, or subcontractor except those authorized by MSP and listed in Schedule B-1, or as required by law. The MDOS shall not disclose MSP data to any other agency, contractor, or subcontractor except those authorized by MDOS and listed in Schedule B-2, or as required by law.

Contractors and subcontractors who require access to the DATA to perform the intended activities on behalf of the parties must agree in writing to the same or more stringent terms and conditions of this DSA and must be listed in Schedule C. The parties must provide a copy of the written agreements referenced here within 30 days of the execution of this DSA.

15. Facilitate annual reviews

The parties must facilitate annual reviews to ensure each person with access to the DATA: (1) needs and uses the DATA in connection with their permissible purpose as outlined in §3; and (2) understands their responsibility in protecting the DATA. The Disclosing Party may perform onsite inspections of Receiving Party's premises to ensure compliance with this DSA.

16. Exempt DATA from disclosure under FOIA when permitted.

The parties will not disclose the DATA in response to a request under the Freedom of Information Act (FOIA), MCL 15.231*, et seq*. unless the law requires (and not merely permits) disclosure. Parties also agree that the federal and state FOIA should not be interpreted to supersede federal and state DPPA. Parties must exempt the DATA from disclosure under FOIA when permitted by law. **In addition to the FOIA exemptions listed in MCL 15.243, the following exemptions from FOIA apply to the DATA: persons who are Address Confidentiality Program (ACP) participants are exempt from FOIA pursuant to MCL 780.851, et seq.** If the Receiving Party determines the law requires disclosure of the DATA under the FOIA, the Receiving Party will notify the Disclosing Party prior to making any disclosures of the DATA not intended under this DSA. The Michigan Department of the Attorney General must be consulted on any questions regarding ACP participant information.

Exceptions to this subsection include:

i. data that was already in Receiving Party's possession without an obligation of confidentiality;

ii. data that was developed independently by the Receiving Party;

iii. data that was obtained from a source other than MDOS without an obligation of confidentiality; or

iv. data that was or is publicly available when received, or thereafter became publicly available (other than through any unauthorized disclosure by the Receiving Party).

17. Destruction of DATA.

The parties must destroy the DATA, including copies of the DATA, upon completion of the purpose stated in §2, consistent with applicable law and the Receiving Party's record retention and disposal schedules. Receiving Party must provide written certification of DATA destruction if requested by the Disclosing Party.

18. Training

By executing this DSA, the parties certify, to the extent possible, that the DATA will be used in compliance with §3 and §7. The parties understand that the unauthorized use or disclosure of the DATA obtained under this DSA could subject an individual to criminal penalties imposed by law.

MDOS will provide, and MSP will mandate, DPPA training to all persons that will directly access MDOS data. MSP will provide, and will mandate, CJIS Security and Privacy training to all persons that will access MSP data. Individual users that fail to complete the training as required under this DSA shall not have access to the DATA.

19. Costs and Damages

Each party will be responsible for its own costs, losses, and damages related to the sharing of data under this DSA except as otherwise provided in §20 below. Neither party will be liable to the other for any claim related to or arising under this DSA for consequential, incidental, indirect, or special damages.

20. Security Breach Notification

The parties must adhere to DTMB Technical Procedure No. 1340.00.01.02, *How to Handle a Breach of Personal Identifiable/Sensitive Information Incidents*, Current Revision. The parties must implement internal policies and procedures for reporting security breaches and provide a copy upon request.

Notwithstanding any internal policy to the contrary, if Receiving Party discovers or has reasonable cause to believe a security breach as defined in §2 has

occurred, the Receiving Party must report it to the Disclosing Party within three business days. The Receiving Party must notify the Disclosing Party of any final determination of an investigation which determines the DATA was used in a manner outside the scope of this DSA. The parties will cooperate with one another to investigate, mitigate, and remedy unauthorized access, use, or disclosure of the DATA.

Receiving Party must identify through audits or other available means entities or persons who improperly access, use, or disclose the DATA.

If any act, error, omission, negligence, misconduct, and/or breach by Receiving Party or its contractor compromises the security, confidentiality, or integrity of the DATA, Receiving Party will take all reasonable actions required to comply with applicable law as a result of such security incident and assumes full responsibility for any associated costs and duties, including but not limited to notification of affected individuals and entities, and if requested by the Disclosing Party, will provide credit and identity monitoring services for 24 months to affected individuals as required by law.

21. Accuracy

The parties will use reasonable efforts to ensure the completeness, accuracy, and timeliness of the DATA provided under this DSA. However, the parties cannot guarantee DATA accuracy and will therefore not be held responsible for any damage to Receiving Party resulting from the disclosure or use of DATA that is inaccurate, incomplete, or outdated.

22. Cooperation; Execution of Additional Agreements

The parties will execute such documents as may be necessary to realize the intentions of this DSA or comply with law. The parties will also require third parties to execute such documents as may be necessary to realize the intentions of this DSA or comply with law, prior to granting the third-party access to the DATA. Examples include business associate and non-disclosure agreements.

23. Issue Resolution

The parties will work collectively to resolve system issues relative to the parties' access to the DATA. Additionally, upon the request of either party, the parties will convene as reasonably necessary for the purpose of resolving problems that may arise in the administration or enforcement of this DSA. The parties will exchange documentation as reasonably necessary to identify and explain issues and positions. Any portion of this DSA that may be subject to interpretation will be addressed at these meetings.

24. Breach

Failure to comply with the requirements of §3, §7, §14, §15, §16, where applicable, and §18 is a material breach. In the event a material breach is identified, notice will be provided as outlined below in §25. Receiving Party will have five (5) days to cure the identified breach or to schedule a meeting with Disclosing Party to discuss the identified breach and to identify a cure. Failure to cure the breach within a reasonable timeframe may result in suspension of access to the DATA.

25. Notices

Notices and other written communications must be addressed to the individuals below or their successors. Parties may amend contact information by providing written notice of the change to the other party. Notices or other written communications required or related to this DSA must be in writing and delivered in person or by email.

For MDOS:	**For MSP:**
IRW Chief of Staff 430 W. Allegan 4th Floor Lansing, MI 48933 IRW IRW With copy to: IRW Chief Legal Director 430 W. Allegan, 4th Floor Lansing, MI 48933 IRW IRW mdos-lsa@michigan.gov	IRW Division Director Criminal Justice Information Center 7150 Harris Drive Dimondale, MI 48821 IRW IRW

26. Compliance Monitoring

On at least an annual basis, the parties will review the practices and procedures outlined in this DSA to ensure compliance with the terms of the DSA and the law. The parties will provide the results of such reviews to the other party upon written request. The parties will also ensure that they take appropriate

measures to ensure that information about the DSA is kept up-to-date. The parties have designated the individuals listed below as responsible for this section.

Main Point of Contact for **MDOS:**

[redacted] Director of Office of Investigative Services,
[redacted]

Main Point of Contact for **MSP:**

[redacted] Manager, LEIN and CJIS Compliance Section,
[redacted]

The parties also recognize that this DSA is subject to compliance audits, investigations, and reviews as provided by law.

27. Amendments

This DSA may be amended by written agreement of the parties. If amendment to this DSA is required to comply with federal or State laws, rules, or regulations, the parties will promptly enter into negotiations to meet those legal requirements.

28. Effective Date and Term

This DSA is effective on the latest signature date of the parties. Unless terminated under §29, this DSA will expire **three years from the effective date**. This DSA may be renewed upon written agreement. Parties will meet no less than 30 days prior to the end of this term to begin renewal process.

29. Termination

This DSA may be terminated for any reason by either party upon 30 days' prior written notice to the other party.

30. Survival

The rights, obligations, and conditions set forth in this DSA; and any right, obligation, or condition that, by its express terms or nature and context is intended to survive the termination or expiration of this DSA, survives any such termination or expiration.

31. Jurisdiction

This DSA is governed by and constructed in accordance with the laws of the State of Michigan.

32. Entire Agreement

This DSA replaces and supersedes all prior agreements between the parties relating to the subject matter of this DSA.

33. Execution

This DSA may be executed in counterparts, each of which is deemed to be an original, and all of which taken together constitutes one and the same instrument. The signature of any party transmitted by email is binding.

34. Successors; Assignment

This DSA insures to the benefit of and is binding upon the parties, their respective successors-in-interest by way of reorganization, operation of law, or otherwise, and their permitted assigns. Neither party may assign this DSA to any other party without the prior written approval of the other party.

35. No Third-Party Beneficiaries

This DSA does not confer any rights or remedies upon any person or entity other than the parties and their respective successors-in-interest by way of reorganization, operation of law, or otherwise, and their permitted assigns.

36. Authority to Bind

Each person signing this DSA represents that they are duly authorized to execute this DSA on behalf of the responsible agency.

Schedule B

Employees with Data Access Privileges

The Michigan CJIS Administrative Rules, R 28.5101(a) defines "access" as the physical or electronic ability, right, or privilege to view, modify, or make use of CJIS and Criminal Justice Information (CJI).

The Michigan CJIS Administrative Rules, R 28.5208, allows LEIN to be accessed and used for the administration of criminal justice or official law enforcement purposes. Direct access to the DATA is restricted to those MSP employees who require such access to fulfill their job duties. All MSP employees have unescorted access to MSP facilities following completion of a mandatory background check. As such, there is potential for all MSP employees to indirect access the DATA obtained via this DSA as a result of such facility access.

Direct access to the information transmitted under this DSA is restricted via CARS to those MDOS employees who require such access to fulfill their jobs duties.
